Preliminary Prototype Evaluation, RS-6A Radio Set

REF : (a) Contract PSC-148-UNV with [REDACTED]

25X1

(b) Test Report for the Preliminary RS-6A Prototype, dated 24 March 1953

1. A preliminary prototype model of the RS-6A Radio Set was submitted to this Agency by the Contractor under the contract of reference (a). This model has been tested by the Research and Development Branch, OC, for compliance with specification No. 50-A-1006-A as amended. The test report of reference (b) contains the tabulated results of the tests made on the RS-6A model. Three copies of this test report are attached to this memorandum.

2. The tests conducted on the RS-6A indicate that this model is not acceptable as submitted to this Agency. The deviations from the specifications are tabulated in paragraph 5 of the attached test report.

3. It is requested that a copy of the test report of reference (b) be transmitted to the Contractor accompanied by a request that corrective action be taken in the design of the RS-6A to provide for compliance with the specifications. Further, the Contractor should be required to incorporate such design corrections in the five prototype models of the RS-6A which he is required to submit subsequently, under the terms of contract PSC-148-UNV.
